

Attractions

Mpanga Central Forestry Reserve is a Nature Forest with unique Tree species and other Flora. Among the outstanding Tree species are the Celtis Family species with large buttress, the Ficus Family and Mahogany. The Forest also boasts a number of primates especially the red-tailed monkeys. Nocturnal visits can be arranged to see the Bush Babies. There is an array of bird including the Ross' Turaco, Weaver-birds, and the Grey Parrot, owls, Hornbills and cuckoos. The forest is also home to a variety of butterflies and moths.
